

The TRUE Hockey Program

The ART of SHOOTING the PUCK

ELEVATE YOUR GAME

As part of our **TRUE** hockey program, '**THE ART OF SHOOTING THE PUCK**' will offer your hockey player the very best of opportunity to be progressively stronger & better prepared for the season!

GREG GRAVEL

*PROGRAM DIRECTOR: OHL, NHL, AUAA
All-Star/CIAU All-Canadian, Olympic Program*

"We offer a 7 or a 10-week (includes slap shot) off-ice program that is 100% dedicated to the committed hockey player... It is not a 'social gathering', it is a challenging, fun individual daily routine...where critical attention is being given to puck handling and shooting...train like the pros!"

- The focus of this program is a simple one—to build more comfort with the puck from stick/puck handling, shooting & passing.
- So much of coaching time is focused on systems and team tactics.
The Art of Shooting the Puck complements this by focussing on fundamental individual skills without using your team's ice time.
- We will provide the tools, the expert instructions, the mentorship and the environment for your hockey player to succeed. Baseline will continually be challenged.
- Video instructions of weekly 'homework' will be easily accessible on-line for 'anytime' review!
- What we ask is a simple commitment to getting better.

THIS PROGRAM WILL MAKE THEM BETTER!
